Core Conditioning — 25-minute class strengthens and stabilizes the entire core: rectus abdominis, obliques, hip flexors, glutes, hamstrings and lower back extensor muscles. Cutting-edge floor work and stability ball exercises are used to enhance abdominal definition and increase core strength.

Cycle — A cardio workout on a stationary bike, Cycle classes are technique-based and/or real terrain-based. We focus on cadence, heart rate zones, climbs and sprints.

Cycle & Core — A 45 minute cycle class with 15 minutes of core work at the end. Core work includes abdominals, obliques, hip flexors, glutes and lower back exercises.

Hatha Yoga — A physical approach to the yoga practice connecting postures, movement and breathing.

Mindful Flow Yoga — This format is slower than Vinyasa Flow. However, it is not any less challenging. Mindful Flow combines flow with longer holds in standing poses to build heat and draw awareness to breath and alignment.

Power Yoga — Nourish your mind, body and spirit in this invigorating workout. Poses (asanas) are sequenced together and linked with the breath to create a flow (vinyasa) of exercise. Increase strength, improve flexibility, reduce stress and bring balance into your life with this challenging class. Prior yoga experience is strongly encouraged.

Restorative Yoga — This class is slow and meditative, linking slower movements, alignment and breath work. Each pose (asana) is held comfortably and longer than other yoga classes. This deep relaxation releases hormones that rebuild and regenerate the body. Class is ideal for beginners, those returning to exercise or for participants with minor injuries.

Total Body Yoga — A multi-level class incorporating breathing, balance and limited strength work. Expect a slow and easy flow, moderate standing poses and leisurely floor stretching. This class is appropriate for both new and experienced yoga practitioners, and is perfect for runners and cyclists! We make modifications for pre/postnatal students and those with injuries.

Vinyasa Flow Yoga — A vigorous, more athletic approach to yoga with flowing poses and sequences linked to the breath.

Yoga Basics — Beginner class working on basic poses (asanas) and flows with attention to alignment and breath awareness.

Yogalates — a mind/body experience that combines Pilates exercises with the postures and breathing techniques of yoga.

Yoga Sculpt — A safe, upbeat fusion of flow yoga and body weight moves that target all areas while still maintaining a strong focus on breathing and final relaxation. While challenging, this class will include modifications, both up leveling and easier options, to a breezy, uplifting soundtrack.
